Our patients' feedback

Following recent visits to Dr David Chapman for dental treatment, I feel I must comment on the practice as a whole.

I believe as a patient of 15 years or more, I count myself lucky to be on your 'books' as the facilities and standard of treatments seem for me, to be of the highest order.

For whatever reasons, I have always been a customer of the 'upper' room, and therefore in the hands of David, who has got through many pairs of latex gloves whilst trying to keep my ageing teeth in some form of decent order – remember, you can't make a silk purse out of a sow's ear.....

Seriously, the visits are a pleasure, and I am grateful for the professional and painless treatment I have received over the years. I think the art of re-assuring a patient is a special gift, especially when procedures are explained as treatment progresses.

The added luxury of armchairs and drinks machines etc, is the icing on the cake, and I close just saying how grateful I am.

Thankyou.

Best Wishes,

Tony Webb

Always telling friends what an excellent practice this is.

Angela Ward

Always helpful and fun, if you can have that in a dentist!
Don't have to wait and the reminder phone call is a great help.

J Biddle

This is my favourite dentistry. Last time I was here I fell asleep in the dentist's chair!

Pamela Burton

The service at Wincanton DP is excellent. It's a comfortable, relaxed environment, and all the staff are great at making you feel at home, particularly if you are a nervous patient like myself! The dental care is really professional-I know my teeth are in great hands.

Testimonials

Our patients' feedback

I have been to Wincanton Dental Practice for emergency service - I cracked two front veneers. David Chapman has repaired them within two weeks and I am extremely pleased with the results. I will be coming back for further dental work here.

I have found all the staff extremely helpful and the practice has been 100% professional.

I would recommend this practice to my friends!
